

HOUSE LEAGUE HOCKEY

Last Monday, the initial meeting of this season's House League Hockey enthusiasts was held in Teen Town Clubrooms. A good turnout was on hand and it was indicated that we shall have 6 or 7 teams entered in the race this year. The main point of controversy centered around the equipment problem. Two schools of thought presented the pros and cons on two different ways of solving this problem. One was that all persons participating in this league be assessed an equal amount to make funds available for the purchase of equipment necessary to put two teams on the ice. The other was that all players taking part supply all of their own playing equipment. Representatives of the various teams were to make a survey of their players' opinions on these two proposals and report back at the next meeting, which has been called for 7:30 p.m. in the Mill Conference Room on Monday, November 10th.

Please note that this will be a general meeting. All enthusiasts are welcome to attend.

COMMUNITY SAFETY PARTY

A special committee set up by the Accident Prevention Committee has unanimously decided that the Community Safety Party (which was earned by LongLac employees for completing 750,000 safe man hours) will be held in the High School Auditorium. The date of the celebration is not yet certain but plans call for holding the event on the first Friday evening after the official opening of the High School which will probably be about mid-January. The Safety Party will take the form of a Dance.

As in the past, children will not be overlooked, and a special show with treats will be held on the Saturday afternoon following the dance.

When additional details are worked out they will be announced.

PATRONIZE THE BOY SCOUTS

SQUARE DANCING COURSE TO BE HELD

In conjunction with the Community Programmes Branch of the Dept. of Education, the Recreation Committee are sponsoring a course on Square Dancing that will feature the teaching of fundamentals of square dancing, how to teach it and how to call. Some time will also be given to other types of Social Recreation. At the time of writing, it is expected that the course will extend over a period of 3 days with a three hour session to take place each evening. Emphasis will be placed on leadership training for the purpose of leaving behind enough information and skill so that it may be passed on to others.

Inasmuch as the enrolment will be limited to 20 persons and we now have 10 of these already registered, we can accommodate another 10 only. Applications will be handled in the order that they are received. First come -- first served! Direct all enquiries to Ossie Dalzell or M. O. Nelson.

This is a free course.
