LARGEST CIRCULATION IN TERRACE BAY

March 4, 1954.

## EDUCATION WEEK MARCH 8TH.-14TH.

Monday, March 8th is the beginning of Education Week and is being observed as such throughout Ontario. The Schools in Terrace Bay are no exception, and each school has been preparing for some time for this important week.

Each school has a program to offer and the people of Terrace Bay are urged to give each school their support in the observance of Education Week.

### PUBLIC SCHOOL

Next week, March 8th-14th is Education Week throughout the schools of Ontario. During this time, the teachers try to rekindle the interest of the parents in the education of their children.

The help the parents to a better understanding of the work of the schools, we are holding Open House on Thursday evening, March 11th, between the hours of seven-thirty and nine-thirty. The children will have their work on display for you to see and evaluate. Teachers will be in their respective rooms to meet you and to discuss with you any problems that you might have in connection with your children.

The Home and School Association have kindly offered to serve coffee during your visit.

Everyone in the community is urged to attend. Remember, you do not need to have children in our school to be assured of a welcome.

Education is not a five hour per day project; education begins when you are born and ends when you die. Our task is to arouse in the child the desire to learn. We call this desire motivation. Without this motivation,

### PUBLIC SCHOOL (cont.)

very little learning takes place in school. Children must have a genuine interest in what they are doing in order that their efforts will meet with success. There is no better way to arouse and strengthen this interest than to have their parents show that they too are concerned with what they are doing at school. We are proud of your children and their achievements. You can show your pride in their efforts by taking a few minutes of your time to visit with us on Thursday evening.

### SEPARATE SCHOOL

Education Week March 8-14th 1954 has taken for its theme once again, "Education Everybody's Business." Special radio programmes, special newspaper and magazine articles and other methods of appealing to the public are being prepared on a national basis.

We realize it is the teamwork of Home, Church, School and Community which will reflect in your children's development. To bring about closer co-operation in this teamwork we have set aside Tuesday March 9th as a day when we ask that every parent or others interested visit our school during school hours or at Open House from 8:15 to 9:30 p.m.

We do not plan this as a special day of rehearsed lessons, projects, etc. but we DO want you to see us as teachers in our regular classwork and your children doing likewise. Each classroom pupil will
