MIXED LEAGUE

Although scores on the whole were not too good there were two or three good scores rolled and all by the women. Who said they were the weaker sex? O. Harrison put together scores of 239, 217 and 271 (hi single) for hi triple of 727. Last week H. Delong rolled

MIXED LEAGUE (Cont.)

784 triple w/handicap to beat O. Harrison's score of 783. Last night M. L. Day rolled a 702 scratch triple which with handicap gave her an 816 to top that department. To make things interesting is there someone to beat it in the final week? J. Corrigan kept the men in there with a 249 for hi single of the week and Bob Browning the hi triple with 572. This week we are going to give you all those on the honour list. E. St. Denis 88, J. Semeniuk 89, H. Garratt 75, P. Van Staveren 94, L. Saarka 76, C. Smith 91. For contrast here are some of the better scores C. Buck 214, D. Martin 212, M. C. Kennedy 227, M. L. Day 255, 265, W. Day 201, I. Edmond 200, C. Boudreau 217, B. Browning 208, 205, D. Dalzell 222, 235 (607). Tonight will just about settle it for the play off positions with the Rockets being able to clinch first spot. Cut Ups piled up enough points to put themselves in the lead with the Rockets 4½ points behind with game in hand. Unless these two fall apart at the seams next week they should be in there. The Phillipotts, Gutterpups and Beavers just about settled their hash this week but still have a slight chance.
