POST OFFICE NOTICE

On two occasions recently some person or persons has stuck small pieces of wood into locks of the boxes in the lock box lobby of the Post Office. This necessitates replacement of the locks which is costly and inconvenient for the box holder. To those concerned please take notice that it is unlawful for anyone to loiter in Dominion Government buildings and it is my intention to prosecute to the full extent of the law anyone causing damage to the Post Office in the future

WASHING WALLS

It seems it is not generally known that when washing painted walls you should always start at the bottom. If you start at the top the runs of water go down the dirty wall below and make streaks which are almost impossible to remove.

The Spred Satin paints used in the town-site though they dry rapidly do not cure for 28 days and should not be washed before the end of this period. Should the wall become marked before this you should not wash off right away but wait until curing is complete. Then also though these paints wash well do not use strong soaps or detergents. Spic and Span is quite all right if not used in too strong a solution. Stronger soaps can be used on the enamel in Kitchen and Bathrooms.
