

SOFTBALL (Cont.)

normally enough runs for 3 games. It was a game of "Hot Potato" - neither team could hold it, but after cooling the thing off enough #4 was finally able to handle it.

Shift #4 started with a 7 run 1st inning - a mere drop in the bucket. Fourteen errors later in the top of the 7th Shift #1 had an 18-15 lead and it looked like the ball game. Shift #4 wouldn't quit and put together 5 hits and 2 errors for 4 big runs and the victory.

After this rude jolt Shift #1 had no more fight and meekly went down in order in their half of the 7th.

It should be a long time before we see another game with 37 runs.

Line	Score	R	H	E	W	SO	DP
#4	7 0 1 0 4 3 4	19	20	11	4	1	0
#1	2 4 4 1 1 6 0	18	17	5	1	1	0

No one claimed the \$8.05 draw prize which will be carried forward to Friday's game.

Standings:

	Won	Lost	Points
Shift #2	11	1	22
Shift #3	6	4	12
Shift #1	6	6	12
Shift #4-Struct.	5	6	10
Salary	3	7	6
Townsite-Maint.	2	9	4

Next Week's Schedule

- Friday, July 23 - Salary vs. Shift #3
- Monday, July 26 - Salary vs. Townsite-Maint.
- Wednesday, July 28 - Shift #1 vs. Shift #3
- Friday, July 30 - Shift #3 vs. Shift #4-Structural.

This week could determine the four playoff teams.

FIRE PREVENTION NEWS

The recent issue of Bush News carries a comparatively large proportion of news items on the forest fire menace, it is meant to convey a message aimed at all citizens who use the forest-lands - either for work or for recreation and sport. A tiny spark is sufficient to transform a peaceful forest into a fiery inferno which not only destroys the trees but damages the soil and brings a scorching, horrible death to all living things in the area which are unable to escape the flames. Probably, there is nothing short of a war which is as awesome and terrible as a savage forest fire, which, given the right conditions, can turn aside all the efforts of man and machine to suppress it. Fire is a useful thing to mankind when it is harnessed - but when it gets out of hand, as in the case of a forest fire, its usefulness is turned into awful destruction and death. It is hoped that this message will help in some way to convey to its readers the tragedy and far-reaching impact caused by forest fires. LET CAUTION BE THE WATCHWORD IN THE WOODS THIS FIRE SEASON.
