

COMMUNITY T.V. AVAILABLE IN TERRACE BAY

The Community Television is now in operation and is proving quite successful however as with most new services of this sort, troubles occur.

It has been brought to my attention that Television Receivers cause interference to the reception of Radio. This is caused by radiation from the Television Receiver which is carried out of the house by the television lead in. Because of the weak Radio signals in this area, any interference is quite evident. I should like to ask all those residents so affected, to bear with me for a short while.

I have been consulting with several firms on this problem and have already had some answers. I hope that I shall be able to clear up this trouble in a short time.

RECREATION FLYER

Ladies Benefit Hockey Game

The "Cream Puffs" and "Powder Puffs" broke training camp today and both teams are reputed to be in fine physical and mental condition for their contest this evening. Your TERRACE BAY NEWS Sports Reporter - endeavouring to give you a more complete picture of this year's outstanding sporting event interviewed a member of each team. Stonewall Boudreau, reputed to be a bruising body-checking type of defence-man, was asked for her opinion regarding the outcome of the game with the "Cream Puffs"

Stonewall- "Dah! We'll eat 'em."

Yakey Whyte, who incidentally wrestles in the off-season, had this to say about the approaching festivities:

Yakey - "We got the weight, see! an' when da goin' gets tough it's da weight that counts, see! - an' we got the weight."

Both the New York Rangers and Chicago Black Hawks, cellar-dwelling clubs of the N.H.L., have dispatched their chief scouts to Terrace Bay for the game in hopes that they might find a player or players who could possibly help them out in their present dilemma.

Pre-game odds are quoted as high as 6-2 and even, with Terrace Bay Private Hospital being the favourite.
