CREDIT UNION NEWS

A True Democratic Organization

The practice of true thrift does not mean just the accumulation of money. It includes the wise use of money.

In a credit union, savings do not become hoardings but rather are applied to the job of helping people to tide themselves over periods of financial distress or need without turning to the high rate, and sometimes usurious, money lenders.

In a credit union, ownership and control are vested in the members.

All the members have equal voting power regardless of the number of shares they own, thus providing control by people and not by dollars. Proxy voting is prohibited to prevent one person from controlling the votes of others, and a member is free to cast his vote as he pleases, knowing that his vote carries as much weight as any other.
