RECREATION FLYER
SWIMMING MEET IN MARATHON

In the past Terrace Bay has always come out second best in swimming competition with Marathon. Not taking anything away from the swimming proficiency that seems to prevail at Marathon we feel that lack of man power has been the key to our failures. This year we arranged to have at least 2 contestants in each event listed and this presents a small problem, namely transportation. As in past years we must call on the car owners of Terrace for assistance, as approximately 10 autos will be needed for the trip. Anyone wishing to volunteer their car and services please get in touch with Ray at the centre as soon as possible, or leave your name with Marvin at the beach. Not even Terrace Bay can win a swimming meet in Marathon if its swimmers can't get there so let's hear from you good folks.

BOXING

There is still plenty of room for anyone interested in boxing to come out training nights and work out with the boys. It looks like we may have a card in the early part of September so let's come out and get in shape. Tuesday and Thursday at 7:00 and Saturday at 2:00.

SWIMMING CLASSES

It is an established fact that Red Cross Water Safety classes and the knowledge gained from them have been directly
 (Cont. on next col.)

RECREATION FLYER (Cont.)
SWIMMING CLASSES

responsible in saving numerous lives. Let's face facts Mothers, it's highly illogical for you to insist that your child have perfect attendance at school and then be lax about their attendance at Water Safety classes. Reading Writing and Arithmetic are of little value to a drowned person. There are only a few classes left and we would like to qualify as many as possible for their swimming awards.
