P L E A S E !

Don't let the youngsters play around the snow-blower. It's a valuable piece of equipment that can do a good job in keeping our streets clear of snow. But it could also be a killer.

Youngsters no doubt have fun getting sprayed by snow from the blower. But the same snow could contain a rock that would fracture any skull that got in the way.

And in the excitement of play around snow removal equipment any youngster could slip and be run over before a heavy vehicle could stop. That would be tragic.

Snow removal equipment operators are being urged to use the utmost care possible. But they can't see everywhere at once. So please do everything that can be done to help.
