NEWS AND NOTES FROM D COY LSSR

With the weather permitting the members of D company will be doing range-firing with the Brens and rifles sometime next week. The infantry is still Queen of the Battle because one must occupy the ground. The rifle and Bren are the personal weapons of the infantryman, though there is usually one Bren to a section of 12 men. Knowing how to handle the Bren machine gun and rifle well is only one of the many things an infantryman must know. In this modern day world, to use the latest weapons, he must be well trained and be alert. We have had encouraging results from the call for more members, make it a point to join.

See you at the Armouries South Camp 7:15 to 9:15 Monday and Friday.
