

NORTH CAMP SOFTBALL

The Canaries finished the season's play with a flourish by winning their last three games, and ending up with a 9-4 won and lost record. On Monday August 20th, the Canaries played an Exhibition game with the Terrace Bay Womens team, at the North Camp ball field. The game went nine innings with the women scoring ten runs in the last inning, only to have the Canaries score four, with two out, to win by a narrow 29-28 score. A good crowd was on hand, and the game was enjoyed by the spectators and players alike.

The first game of the best of five North Camp playoffs was held on Thursday August 23rd. Besides being the best played game, it was also the lowest scoring and fastest, taking only one hour to play. The Budgies, by winning a well played 9-7 game showed that they will be tough to beat. The second game is scheduled for Thursday, August 30th and should be interesting to watch.

THESE TYPES AND MOODS SPELL DANGER!

Don't be a name in an accident report. Learn the meaning of safety before you become a statistic.

The careless, the thoughtless, the pretentious, the chip-on-the-shoulder, the rebellious, the cantankerous...all these contribute to accidents in work or play. Add the "in-a-hurry" and the "can't-be-bothered" and you have a round-up of almost all the types and moods that spell D-A-N-G-E-R!
