TERRACE BAY FISH AND GAME ASSOCIATION

A well attended meeting was held on September 10th, in the Recreation Centre, with President Ken MacLeod presiding.

Business discussed mainly concerned correspondence from the summer recess and reports from the Dept. of Lands and Forests, in connection with the Perch Lake reclamation project.

Treasurer Nels Allen reported finances in a favourable condition and Bob Hales, as chairman of the junior program, reviewed the work done thru the summer and indicated that this junior program has been well received by the youngsters in the townsite and it would be continued.

The main discussion centered around the sending of delegates to the Northwestern Ontario Conservation Federation, Zone One meeting, September 22nd, 23rd at Upsala. Two resolutions were passed for submission to this meeting, one regarding seasons for rainbow trout in Lake Superior and the other in connection with conservation policies in this district.

John B. Garvin and Tony Delaronde will be the official club delegates to the Upsala meeting and it is expected that other members will attend as the club's interest in the Federation activities is quite high.

The meeting closed after the showing of some excellent coloured films, one on spin fishing for speckled trout, courtesy of Calvert's Ltd. and two courtesy of the Dept. of Lands and Forests Port Arthur, on wildfowl and forest fire fighting in Northern Ontario.
