## CANARIES WIN NORTH CAMP SOFTBALL

The North Camp Softball playoffs reduced to a best of three series, ended last Wednesday night September 12th not with a bang, but a whimper, for the Budgies at least. After having won the first game 9-7, the Budgies lost the remaining two games by scores of 16-4 and 20-16. Thus, the Canaries emerged as the champions of North Camp Softball in the first season of operation.

We are sure all the fellows who participated in the Softball games enjoyed themselves, and it is hoped that this recreation will continue again next summer; without their enthusiasm the games would not have been played, and possibly next year a permanent 3 or 4 team league will be organized. A note of thanks must also go to the Recreation Committee, through which Jim Fraser was able to get the new balls and bats that were used.

## GIRL GUIDE ASSOCIATION MEETING

The regular monthly meeting of the Terrace Bay Girl Guide Association will be held on Monday, September 24th at 8:00 p.m. in the small meeting room of the Recreation Centre. Let's have a good turnout of members and mothers of Guides and Brownies who are not yet members. Let's start this season well everybody!

## FIRE PREVENTION WEEK OCTOBER 7 - 13 USE YOUR HEAD - AND SAVE IT

Scores of lives could be saved from fire by the exercise of coolness and good judgment. That is the opinion of experts of the Canadian Association of Fire Marshals and the Canadian Association of Fire Chiefs who, during Fire Prevention Week, October 7-13, are doing their best to emphasize the dangers of fire in the home.

Small fires may be fought successfully by the average householder - but the best thing to do when a fire is discovered is to notify the fire department. If you have a telephone and can't remember the number-- and you should post the number near your telephone -- tell the telephone operator, being sure you give her the correct address. Stay near a door or window so any sudden bursts of flame cannot trap you. If you are fighting a fire with a hose or any type of water stream, always aim at the object that is burning, never at the smoke or flame. If the fire is spread out over the floor or ground, start at the end nearest you and sweep it out completely as you advance. If the fire is travelling up a wall, put out the fire at the bottom first and then follow it up.

When fighting a fire due to an electrical cause, first turn off the power. You should know the location of the main house switch and a simple pull of the handle cuts off power throughout the house. That prevents the fire from being re-ignited and also avoids the possibility of giving yourself a severe electrical shock.

Most boys agree that "being a fireman" is the height of their ambition. It's easy for parents to teach children simple, good fire-fighting practice by making a
