

TERRACE BAY ROCKS RED ROCK 9-4 cont'd.
from Page 7

after the first period, and only after they ran up a 9-3 lead did they permit the Royals to score another goal.

It was a fine victory for the Superiors, especially gratifying after being down by two goals. To those of you who aren't attending these games, well, you're missing a fine, fast and bruising style of hockey. Our Superiors are a good team, they deserve your support!

o-0-o

TERRACE BAY CLOBBERS GERALDTON 15-5

Sunday, in the Arena, the local snipers had themselves another field day against the Geraldton Goldminers. The outcome of the game was never in doubt as it was only a matter of how high the score would be.

Pacing the Superiors' attack were Whalen with 4 goals and 4 assists and Desrosiers who exploded for 5 goals while adding an assist. Byerly and Rudiak, each scoring two goals, tried their best to keep the Goldminers in the game, but Terrace Bay had too much of everything for the visiting Geraldton six.

The passing of the Superiors again stood out as they scored almost at will against a sometimes bewildered Geraldton team. While Geraldton never had much of a chance, they never quit trying despite the overall speed advantage the Superiors enjoyed. They'll be a better team with a few more games under their belts.

TERRACE BAY DOWNS SCHREIBER 8-1

A fired up Schreiber team, playing good hockey most of the way, battled heavily favored Terrace Bay on even terms for almost two periods and then wilted in the final stanza.

It was a bruising game and tempers flared from time to time, but at no time did the game get out of control. Schreiber checked closely, and once again Gavin was a big man in the nets for the Colts. If Schreiber can improve its

(cont'd. next column)

defence enough to give Gavin some help, they could be tough to beat.

It was the usual story as far as Terrace Bay's scoring goes. The big line had 6 goals between them with Whalen getting 4 and Maurice Osmar 2. The other two goals went to Kenney and Stachiw. This line of Osmar, Whalen and Osmar is really something to see. When they're on the ice the pressure is always on the defence as their passes seldom miss their target.

If the big three are on tonight Marathon is in trouble; if they're not on, well, lets not even think about that.

THE HOME FIRE DRILL

The home fire drill should be part talk and part action, since there are things about a fire the family must know and things it must do.

Following the example of air raid drills and school fire drills, the home fire drill should be handled seriously. It should not be made into a game lest younger children get the idea that a fire would be fun. Every year over 20,000 fires costing eight million dollars are caused by children who used matches as playthings.
