Canadian Figure Skating Association of which our Club is a member.

With about a hundred beautifully costumed skaters bringing you a very good 16 act show, gaily decorated ice and scenery, special lighting effects and some outstanding skating from our professional, PLUS some very talented skaters from the Lakehead Figure Skating Clubs, we feel this is a combination that should make this show the entertainment value of the year.

CAN SUPERIORS CONTINUE THEIR COMEBACK?

That is the big question these days, and tonight's game at Marathon should provide the answer. We haven't had a victory on Marathon ice all season, so the Superiors are way overdue, and what better time than tonight for win number 1.

The series is a best of seven affair, or the first team to reach 8 points. To date Marathon has 2 wins and a tie compared to 1 win and a tie for our never say die Superiors. While the Mercuries are still the favorites, a win for Terrace Bay tonight would certainly put them in the driver's seat.

So let's all get out and back our Superiors, tonight at Marathon and Sunday in our Arena. They need our support now more than ever fans, so let's give it to them.

GO, GO, SUPERIORS!!
