

KENORA THISTLES WIN 6TH GAME TO WIN
THUNDER BAY CHAMPIONSHIP

Last Friday night the Kenora Thistles kept the pressure on a tired looking Marathon Club to win by a 4 to zero score to wrap up the Thunder Bay Intermediate Hockey Championship. At the end of the second period it was one to nothing for Kenora, and the Marathon supporters were looking for a third period rally to down the Thistles. But Marathon looked as though they had ran out of steam and Kenora scored three times without a reply.

MARATHON TIE SERIES, THURSDAY NIGHT BY A
5-4 WIN IN OVERTIME

One of the best hockey games played in the local Arena saw a fighting Marathon Club take a last minute win over Kenora.

This game was an even battle all the way. At the end of the second it was 2-2. At the end of the third 3-3. All Kenora needed to win the series was a tie game. One ten minute overtime period was ruled. Kenora, in the overtime, scored in the first few minutes, and the situation looked grim for Marathon. But Marv. Osmar, from the next face-off, exploded with determination, and after several tries on goal cleared out to Amadeo who sunk the equalizer. With a 4 all tie, the Mercuries battled Kenora up behind their own blue line, and with two minutes remaining Lanteigne banged in the winning goal. Pete Amadeo was the big gun for the victors. He was a terrific threat and came up with a hat trick.

So another hockey season ends along the North Shore. The Marathon Mercuries and the Kenora Thistles ended it with some lovely hockey which had the capacity crowds in the local arena screaming most of the time.

RECIPE FOR PRESERVING CHILDREN

1 grass-grown field
1/2 dozen children (or more)
Several dogs (and puppies if in season)
1 brook
Pebbles

(cont'd. next column)

(Cont'd. from last column)

METHOD: Into the field pour children and dogs, allowing to mix well. Pour brook over pebbles till slightly frothy. When children are nicely brown, cool in warm tub. When dry, serve with buttermilk and fresh-baked bread.

BACK-YARD CENSUS

One little boy alone is one:

Now, that I don't deny;
But, with this sum so neatly done,

I still can't figure why
another boy and one make 10

Instead of simply two;
They even sound like 20 when

They do the things they do.
