

Saturday, June 22nd, a "Management Night" Dinner was tendered by the Lakehead and District Chapter of Credit Unions - thirty-two in all, - in honour of the friendly representatives of Management in Community, Parish, Association and Industry who have so willingly aided the Credit Union Movement in its battle against usury.

The Dinner was held at the Flamingo Club, in Fort William. The program opened with the Chapter President Robt. P. Milne requesting Rev. Gron Morgan of Port Arthur to say Grace for the 343 guests, followed by a toast to her Majesty the Queen. On the completion of the dinner Mr. Milne gave the welcoming address and introduced the guests at the head table. Mr. Herb Dixon, a League Director then introduced Mr. Aubrey S. Dalgleish, President of the Ontario Credit Union League, and guest speaker for the evening. Mr. Dalgleish's very inspiring address touched on the history of the Credit Union Movement in Ontario, told of his experiences, and travel as a leader in this field, and was spiced with numerous jokes. The response was made by Mr. B. A. McLellan.

Mrs. Nonie Cooper provided entertainment at the Electric Organ during the dinner, and a social hour was enjoyed following the program.

NEW SCALE OF FEES SET BY DEPARTMENT OF LANDS & FORESTS - for cottage sites on crown lands.

Until 1953, frontage charges for private summer cottage sites were 30 cents a foot for not less than 100 feet and not more than 300. In that year the price was doubled. As of April 12th this year, the price is now \$1 per foot. Increases on island and commercial sites have been proportionate.

Before 1953, private cottage site purchases were required to erect a cottage on which had been expended in labour and materials not less than \$500 within 18 months. Since 1953 the value must be not less than \$1000, expended within two years.

Commercial resort sites are required to have a \$3000 expenditure instead of the pre-1953 requirement of \$1000, on any regular area of a width of 600 feet or less. On larger areas the expenditure required increases proportionately.
