## MAINTENANCE - SHIFT 2 & SALARY TIED FOR TOP SPOT IN SOFTBALL LEAGUE!!!!!!!

Shift 2, Maintenance and Salary are proving to be the teams to beat as they are running away from the rest of the League.... These two teams have play-off positions pretty well cinched and it is a toss-up between the other three as to who will miss the play-offs.

The Fan support has been poor this year and hopes are that it will pick up as the race for play-off positions draws closer.

Maintenance have the slickest infield in the League - Salary is proving to have the best hitters as they have Hansen, Ward Stephens and Chopty up there - Moro is the best First Baseman in the League defensively - Aho is the fastest Pitcher while Chopty is the trickiest. Shift #1 have been having trouble lately as most of their better players have been away. Teen Town have the potential but lack the spirit and drive. Pitching is what Teen Town needed and Thompson is proving to be it. Boychuk for Shift #1 is the most under-rated player. Not a long ball hitter, but he still gets those singles. Ray Hansen is the most powerful hitter as he really clouts the ball.

The competition in the League is real keen as the teams begin to think of play-off time - so, BASEBALL FANS, let's see you at the ball field for an evening of good entertainment.
