In Reader's Digest for October there is an interesting article by Henry Morton Robinson called "Get Instructed".

"Too many of us spend our days in deepening grooves of discontent, wanting desperately to increase our repertory of pleasures and attainments but not knowing where to begin. For such as these, the solution is to take lessons in doing some new thing well, or some accustomed thing better."

Instruction may be expensive, therefore the author says --- "How then can we obtain expert instruction if the teacher's fee exceeds our means? One answer is --- form a class or join one."

Consider joining the art club for example, all you need is enthusiasm --- no previous experience required! Just visit the Rec. Centre Thursday night after 8 o'clock.
