On Monday, Feb. 24th the final double round in each Division started. For this double round all points are discarded and the rinks compete within their respective groups on a win-loss basis. The rink with the most wins in each Division after the double round, becomes the winner of the trophy for that Division.

So, in a sense, the local curling club have started their curling play-offs. Good Curling and Best of Luck to all Rinks!

'TOP DOG' TROPHY

Curly Hale, the presumptuous president, challenged the Top Dog MacDonald foursome on Saturday night. The results can be seen on the left. We promised not to quote the score in this column but we can mention that a request has gone into the Club Executive for longer score boards.

In the only other game played, Lou Duquette successfully defended his position against Doug Thompson who is presently keeping President Hale company 'way down yonder'.

'Top Dog' MacDonald, with two wins to his credit, is itching for action. How about it fellows - who's going to knock him off his perch?

Rule Change:

Effective immediately, every rink on the board must curl at least one game per calendar week or be moved to the bottom. Any rink that goes two consecutive calendar weeks without a game will be removed from the board. Please put score cards in for every game.

Also, a rink may now challenge anyone of the three rinks immediately above it on the board.

These changes are designed to stimulate interest to keep the board moving and to get rid of rinks that are obviously getting enough curling in regular club play.
