TERRACE BAY MALE CHORUS PARTICIPATES IN A.M.C. BIG SING AT EAU CLAIRE, WISC.

Last week, 20 members of the Terrace Bay Male Chorus, with some of their wives, travelled to Eau Claire, to take part in the Wisconsin and Upper Midwest District (Associated Male Choruses of America) 1958 Massed Sing. This year's Sing was bigger and better than ever, since there are now two districts represented, and altogether, 18 choruses from these districts, including the Fort William Male Chorus and Terrace Bay Male Chorus, representing Canada, joined their voices to make this a most unforgettable performance. To see 550 men assembled on the stage of the huge Eau Claire Memorial High School is amazing in itself, but to hear them sing en masse is thrilling beyond words, and those who were fortunate enough to attend this concert were well rewarded.

Two solo numbers were sung by our Male Chorus - "Serenade" and "Blue Moon" - and the community of Terrace Bay may be justifiably proud of the reception and applause given to our men, not only because of their excellent

(cont'd next col.)

singing, but also because they had travelled the farthest of any group to take part in this Sing, thus indicating their keen enthusiasm.

Friends and supporters of the Terrace Bay Male Chorus will have the opportunity of hearing them again this year on May 16th, when they will present their Spring Concert in the High School Auditorium. Curtain time is 8:15 p.m., and prices are as follows: Adults 75¢, Children 35¢. The intermission artist will be Mr. Ross Wilson at his Hammond Organ. Since next year's Big Sing will be held in Minneapolis, our fellows are going to need all the financial support they can get, so be sure to do your bit by coming out to hear them sing. Canvassers will be calling at your home in the near future, and don't just buy a ticket - come out and give them a hand.

GRANT KELLY JOINS KIMBERLY-CLARK INDUSTRIAL ENGINEERING STAFF

On May 5, Grant Kelly, a 1958 graduate in Civil Engineering from the University of Toronto, commenced working for the Kimberly Clark Pulp & Paper Company Limited in the Industrial Engineering Department.

Grant was born in Oshawa, Ontario but moved to Toronto at an early age where he received his schooling. He is a married man and he and his wife Pat have a son 3 years old and a daughter 1½. Grant is at present living in the Hotel Terrace but expects his family to arrive in Terrace Bay about the end of May.

Some of his hobbies are fishing, hunting, badminton, etc. He also is interested in Scout work.

This is Grant's first extended trip to Northwest Ontario and his definite impression is that Terrace Bay is the best planned and layed out town he has seen in Ontario. A pertinent comment from Grant was that he hoped the same high standard would be met as this entire Northwest Ontario develops.

STUDENTS RETURN FOR SUMMER WORK

Mike Moziar is back at work for the summer in the Engineering Department. Mike is a 3rd year student in Mechanical Engineering at Queens. Jim Eickmier, in Civil Engineering at Queens is back with us working as a Junior Engineer in the Townsite. Gerry Erwin a newcomer from University of Toronto is working in the Technical Department.
