

Students Return for Summer Work (cont'd)

Several of the local boys are expected home shortly to begin work.

In addition, as a result of the summer hiring program there are a large number of former employees back on the payroll. Some of these former employees, from European countries have enjoyed the winter months. Several of them took trips home to Italy and Portugal. They may be setting a new trend. Working in Terrace Bay in the summer and vacationing in Europe for the winter? It startles a person somewhat when it is realized that these people can leave Portugal one day and within a day or two report for work at Terrace Bay!!

COACHES WANTED

As a result of Minor Baseball Registration to date, over 120 boys have expressed the desire to play this summer. Ages range from 6 years to 17 years.

Practices will begin as soon as the balance of registrations are received.

Boys will be graded according to abilities shown at practices, and teams chosen in this manner.

Keep your eyes on the school bulletin boards for news on practice times, etc. These will be posted next week.

.....  
With the largest registration for Minor Baseball in the history of Terrace Bay, coaches are desperately needed. Hopes are that Baseball will prove to be as popular a summer sport as hockey is in the winter, and that an organization similar to the Minor Hockey Association can be formed.

At present, we need evidence that we will have enough men to handle the dozen or more teams that will be playing. If you're interested in either coaching or managing a team, let us know NOW. Call the Recreation Office at your earliest convenience.

(cont'd next col.)

Coaches Wanted (cont'd)

Those handling teams will be called on only twice per week, so that the time involved will not be too great.

Let's hear from you!!
