

EXTENSIVE TOWNSITE PROGRAM PLANNED
FOR THIS SUMMER.

The Improvement District of Terrace Bay have a large program of work scheduled for this summer. The Kimberly-Clark Company also will do a lot of work in the town.

The municipality plan on brushing out the area across from the shopping centre (this work has started) and so has brushing west of the Recreation Centre. A water line will be installed to the cemetery, catch basins and storm sewers will be installed on Kenogami Road. Some hydrants to be moved and raised. Curbing and paving contracts will be let. Landscaping of boulevards and the Shopping Centre are planned. A house will be built for the school staff.

The Cemetery Board have their own budget approved and work on improvement has started with generous help from volunteers through the Horticultural Society who have started working in this area.

The Company have a full summer program scheduled, from painting 75 to 100 houses as well as the hotel and hospital, to landscaping some company buildings and many smaller jobs like revising parking space, etc. Presently a new fence is being installed at the Central Heating Plant. One of the smaller projects is to revise hydro service to some garages, which is a direct result of a safety suggestion that some of the present installations were not safe, particularly to children who play in those areas.

So all in all a general 'sprucing up' is in store for our town this summer, and as these various projects begin and are completed Terrace Bay will be a nicer place in which to work and live.

The annual budget for the Improvement District is nearing completion. The new tax rate will be known within a few days.

SOFTBALL LEAGUE (cont'd from page 1)

Teen Town - Barry Marquis, Salary - Al Harrison. Secretarial work will be handled by the Recreation Office.

Those who wish to play softball this summer should contact the person representing their shift IMMEDIATELY so that he will know how many players are interested.

Plans are to pool available pitchers and steady day workers, and to allot them evenly to different teams. Steady day workers who wish to play should contact the Recreation Office NOW. Phone 3542. It will only take a minute.

NEW TEACHER OBTAINED FOR HIGH SCHOOL

Mr. Willard M. Miller, a fully qualified teacher from the Staff of the Cobalt High School has signed a contract to teach French in the Terrace Bay High School. Mr. Miller has been studying for his specialist certificate in languages and has an endorsement from the Department of Education to mark the progress he has made. Mr. Miller is a graduate of the University of Toronto, is married and has two children.

The resignation of Mr. John Morrison Principal of the Public School has been accepted reluctantly by the Board. Mr. Morrison leaves, after four years at Terrace, to accept the position as principal of the Public School at Elliott Lake. At Elliott Lake it is a 10 room school and offers increased responsibility to Mr. Morrison who leaves with the best wishes of this community.
