A new summer attraction has been added to the list of things "to do" in our townsite. A "nature trail" has been laid out by members of the Terrace Bay Fish & Game Assoc., in the park area, on the road to the river mouth. It is hoped this will prove an interesting and educational item for the people of Terrace Bay as well as to our tourist friends.

What is a nature trail? It is a trail or path wandering thru the woods along which have been placed signs identifying plants, shrubs and trees, giving botanical names and information of general interest regarding them. Our trail has 39 specimens marked out and it wanders thru the park area in a circular route so that you finish at a spot very close to where you started.

Every effort has been made to mark the trail clearly; nobody should become lost. Also, the path is suitable for all but very elderly people.

We hope you will take an hour or so during the summer to visit this trail and learn a little more about the interesting things in the woodlands around our town.

Your co-operation in refraining from picking plant specimens or flowers will be appreciated.

- Terrace Bay Fish and Game Association.
