EDITORIALLY SPEAKING!!

On Tuesday, Sept. 2nd, the school bells toll once more to announce the start of another school term.

Between Terrace Bay and Schreiber approximately 955 children will be enrolled in the schools.

Few people need to be reminded about the importance of Education and it would be ambiguous to say that more emphasis is now being placed on the need for it. However, the facts are plain to read. The Western world is getting concerned over its educational standards or the lack of good standards.

Locally, adults, teachers and students can work as a team to make certain that in our small corner of the world the younger generation will get the best possible education that facilities will permit.

Let us all make education our business all year long.
