MRS. JIM MACDONALD - MRS. LEN CROCKFORD

CHILDREN AT PLAY

The Town Council is concerned about children in Terrace Bay playing on the streets with sleighs, toboggans, etc. A serious accident may result if children do not learn to play elsewhere than on the streets. The streets are slippery most of the winter and a motorist has very little chance to avoid a collision with a child darting out on the road on a sleigh.

Parents are asked to keep their children from playing on the road in order to prevent accidents. We understand the Police Department will discourage children from being on the road playing. Let's all make a genuine effort in this regard to insure a safe Christmas holiday for all our children.

FORGOTTEN CHRISTMAS (Cont'd From Page 9)

Christmas message does not change. Forgetful as we may have been at times about that message, and dilatory as we may have been in spreading it, this troubled old world would have been a lot worse without it. It will get better because of it.

And with that note of hope we wish a Merry Christmas to all. May God bless us.

The best Christmas is the safe Christmas. Among all the presents, your presence is most welcome.

Always look into the future--that's where you are going to spend the rest of your days.

SAFETY CAN'T BE PRESERVED IN ALCOHOL.
