

YOUTH CONFERENCE - Cont'd from Pg. 9

up with addresses by noted persons on important topics.

Keynote of this year's conference is "Responsibility" which is broken down into - The Teenager and the Home - The Teenager and the Community - The Teenager and To-Morrow. These subjects will be introduced by Miss E. Reesor, Y.W.C.A. Public Relations Director; Professor B. Hill, School of Social Work, University of Manitoba; and Dr. C.H. Reason, Medical Health Officer. They will be discussed by the teenagers in smaller groups, and question-and-answer periods will be held on each subject.

All year long, teenagers in all communities have been competing for the right to represent their community at the Youth Conference. Since accommodation is difficult to arrange, quotas are put on each Teen Club. Terrace Bay's quota this year is 18. This means that, out of an active membership of over 50, the majority must remain home. Those who have worked hardest and been the best members will attend.

Several reasons are given for the removal of the size limit on trout. Because of the large natural mortality, it is felt that the trout should be harvested more liberally. Also, in fishing for trout of a specific length, there is mutilation and loss when fish, which are not long enough to be "keepers" are returned to the waters by anglers. Furthermore, the size and growth of trout vary considerably from lake to lake and stream to stream. Lifting of the size limit is expected to simplify enforcement of the regulations.

The use of spear guns will be prohibited under the new regulations.

KIWANIS KIDDIES KARNIVAL - Cont'd from Pg.1)

Tommy Schock. Girls - Marcia Hamilton, Cathy Jo Cotton.

Don Stuart, Brian Pineault - John Shirriff and Earl Moores. Joanne Brown and Maureen Vachon. Jill Crandlemire and Kathy Phillips. Cliff Wood, David Falzetta. Velma LeBlanc and Irene Stuart; Ellen Knight and Anita Lafontaine.

DEPT. REMOVES SIZE LIMIT ON TROUT

With the removal of the size limit on trout, size limits on all game fish in Ontario, with the exception of maskinonge, are now removed under the 1960 sports fishing regulations announced recently by Land and Forests Minister J. Wilfrid Spooner. Size limits on bass and pickerel were removed several years ago.

Among other changes in the angling regulations are:

SEASONS

Rainbow trout include Kamloops trout and lake trout include splake, the speckled trout-lake trout hybrid.

The season for yellow pickerel or wall-eyes will open on the same date in all parts of the Province, May 15, except Lake St. Francis, May 9th.

North and west of, and excluding the French and Mattawa Rivers and Lake Nipissing, other than the Great Lakes, the yellow pickerel season is from May 15 to April 14.

South of, and including the French and Mattawa Rivers and Lake Nipissing, other than the Great Lakes, the yellow pickerel and pike season is from May 15 to March 31.

When the opening date of a season falls on Sunday or Monday, the season opens on the Saturday immediately preceding in all cases.

CATCH LIMITS

Catch limits for lake trout are:

- i. Lake Simcoe two (2) in one day.
- ii. Lake Timagami and southern Ontario (excluding the French and Mattawa Rivers, Lake Nipissing, the Great Lakes and connecting waters and the St. Lawrence River), three (3) in one day.
- iii All other waters five (5) in one day.

The limit for speckled trout will be 15 in one day with an aggregate weight of not more than ten pounds, except in Elgin, Middlesex and Norfolk counties where the limit will be ten in one day with an aggregate weight of not more than five pounds.

(Continued next column)

When contacted to-day Costa's Groceteria, Schreiber, advised that plans for their new store in Terrace Bay will be forwarded here for approval this week and a start on the building will be made as soon as weather permits.

Caccamo's stated that a detailed announcement on their plans would be made within a week or so.

Correction

The date of previous production record set in the Terrace Bay Mill published last week should have been November 7, 1958.

5,000 people, 300 of them non-residents of Ontario, hunted moose in the Geraldton district in the 1959 season and took 1,030 animals, 850 going to residents and 180 to non-residents. The moose harvest was about the same as in 1958.

If there are deer in your area, keep your dog tied up because even the farm collie or the household spaniel can run a deer to exhaustion over crusty snow, Lands and Forests officers urge.

HOME BINGO

STARTS APRIL 7TH

3 CARDS FOR \$1.00

FULL HOUSE \$100

PLEASE PHONE BETWEEN 10 AM & 1 P.M.

18 numbers called the first day - 3 numbers a day Tuesday to Saturday
