SAFETY HERE & IN MARATHON

A recent article in the
Marathon Mercury concerning a
Safety Record in the Mill
there points up that "one of
their main concerns at this
time of the year, is the lack
of "Safety consciousness" on
the part of the younger employees, especially those who
are working during the vacation period. Many of them
fail to get proper rest when
off shift and, as a result,
are more prone to suffer an
accident when working."

It suggests that "the only good answer to this problem is to ask the more experienced workmen to keep a weather eye out for danger and advise these young workers when they are seen doing anything which may bring trouble."

may bring trouble."

The advise is timely also in Terrace Bay where parallel conditions exist. We would like to carry this one step further & remind these young employees that safety precautions not be forgotten after working hours.
