lize that it is a bad time of the year with so much dry grass and paper etc., lying around.

We feel that if everyone does their part to clean up their yards we should be able to have a fire-free year.

In the Lakehead area last week children, playing with matches, set fire to a six acre field of tender dry grass and the results were two garages and a shed burned to the ground before the Fire Dept. could respond to the two-alarm fire.

Let's not have this happen here. One way to help prevent this is to keep matches away from children and impress on them the great dangers of fire.

Fire prevention is up to everyone and if we clean up there is a better chance that we don't burn up. True we have a Fire Dept. to fight fires but the Fire Dept. can't stop fires caused by carelessness. It is up to the individual--YOU CAN STOP THE FIRES BEFORE THEY START

1. CLEAN UP - IT'S GOOD FIRE PREVENTION.
2. FIRE PREVENTION IS THE BEST FIRE FIGHTER IN THE WORLD.
