As requested by His Royal Highness the Duke of Edinburgh, His Excellency the Governor General of Canada has proclaimed the week of May 29th to June 4th as Commonwealth Technical Training Week.

The objective of this week is to create more public awareness of the excellent career opportunities which exist in the vocational and other fields of employment.

The activities of the national program are under the direction of the Department of Labour and the Boards of Education. Industry is assisting by inviting students to visit their plants so that they may learn more about the skills required in a modern industrial operation.

Last week the Kimberly-Clark Pulp and Paper Company was host to more than 100 male high school students from Schreiber and Terrace Bay. During their mill visit they are taking part in a program designed to show the need for vocational and professional skills in industry today and of the necessity of planning a career and staying in school until graduation.
