### PARENTS OF FIGURE SKATERS PLEASE NOTE

Figure Skating Periods are as follows: Tuesday from 4-5.30; Thursday from 4-5.30, Saturday morning until 12 Noon. All members are entitled to skate for these full periods if they so desire. Group lessons are from 10-11.30 A.M. Saturday morning. Skaters must be on time for their lesson.

Parents of small children are reminded that they must make their own arrangements to have their children's skates put on and laced up properly. Some small children have been going out on the ice with poorly laced skates, and this could result in a serious accident.

### ART CLUB NEWS

There will be a short business meeting of the Art Club, followed by a painting session, in the Rec. Centre on Thursday at 8.00 P.M. Dues for fall will be collected.

The library has a selection of art books which were acquired for the use of anyone interested in art, and art club members in particular. Why not drop into the Library before the meeting on Thursday and take advantage of this opportunity.

### VOX POP

Early in the year the "News" published some facts on fluoridating local water and inviting comment either through the paper or by contacting councillors. No comments were received at the News Office and Councillors reported very little interest. Recently murmurs on the subject have again been heard and again we reiterate - talk to your Councillors or write to the "News".

Mr. and Mrs. Roy Larson and family and Mr. and Mrs. Axel Berndtsson and Holly were recent weekend visitors with Mr. and Mrs. Andy Peters in Nipigon
