## SWIMMING POOL REPORT

The first volunteer labour work was done on the pool decking last Saturday, with a relatively poor turnout of volunteers. Thanks go out to those few who did assist with the work, and great progress was made, considering the number who were there.

It is hoped that during the next week and on Saturday, we will be able to finish the concrete decking so that the fence may be erected. NEXT TIME LET'S HAVE A FULL TURNOUT SO THAT WE CAN GET THE VOLUNTEER WORK OVER WITH AS QUICKLY AS POSSIBLE.

## POOL WARNING

Despite our many pleas for youngsters to stay out of the pool area and to refrain from throwing debris into the pool, we have had problems in this regard throughout the past week. If this is the manner in which these few youngsters intend to use the pool, it is apparent we will have to take further steps to discipline them. Parents should warn their children that anyone found throwing debris into the pool or handling the equipment in the pool area, will be prosecuted.

## TAGGED MOOSE

Some moose hunters may be slightly startled this fall when they bag their moose and find a nice shiny numbered tag attached to its ear.

This is being done to determine the extent of movements of moose. The Dept. of Lands and Forests will interview hunters who bag tagged moose.
