### HELP NEEDED AT GOLF COURSE

Golfers, future golfers and all community spirited people-take a ride to the golf course site of you want to observe a colossal effort by a handful of people.

Two years of slow but steady hard work by these few people has resulted in the completion of holes number one, two, three and four, which will be ready for use in August of 1963. Further work has been done on hole #5 (completely cleared), #9 has all the trees cut and #6 is partly cleared. The remaining two holes seven and eight, have been surveyed and the clearing set for next year. Amazing also is the fact that some of these people do not play golf.

Time and time again efforts have been made to interest other people to contribute a couple of hours a week toward this worthy project. The results were very poor and discouraging. I am sure that many felt that the task was too great for voluntary labour and were doubtful of its success.

To those people I would like to say that the golf course in Terrace is now a reality!

Now is the time for everyone to offer as little as 2hrs. a week towards an early completion of the golf course.

Teenagers, boys and girls can help considerably in much of their remaining work. Contact (Cont'd on Page 7)
