CURLING NEWS (by Jim MacDonald)

Challenge Day

Challenge Day, which is this Saturday should prove to be one of the highlights of the curling year. The draw sheet is pretty well filled from noon 'til 11:00 P.M. with some morning games scheduled as well. And, since many of the participants are "duffers" there should be some interesting games.

Spectators are welcome during the morning and afternoon - no minors after 12 noon. All participants, their partners and of course club members, are invited to the social in the evening. We expect to have the Twilighters on hand to provide the music.

NOTICE TO MEMBERS - Are your curling fees paid? if not see Sandy Crawford.

Have you paid your locker fees? - do you owe for a broom or a hat? - see D. Ke ney or D. Knight.

Ice Committee Request

This committee have done an excellent job this year. The ice has been kept exceptionally clean despite lack of co-operation on the part of some members. In order to do an even better job, the committee request that - shoes be cleaned on the machine before each game; that losing rinks clean ice after every game paying particular attention to the ends including the hacks; that winning teams clean the running surface of rocks after each game before setting

them up on the bumpers; - that roof vents be left open at all times. PLEASE CO-OPERATE!!
FLASH !!

Due to many varied reasons the Engineering Office have not been able to field enough curlers ?? - to match the Tech. Admin. squad. So, Technical have condended to play with Eng. against Admin. This will even things up and give the Admin. group some competition. Who knows, maybe Eng. will finally win one of these challenges.
