PROMPT SERVICE

B.A. SERVICE STATION

HIGHWAY 17 - - - SCHREIBER, ONTARIO

LOCAL CHILDREN'S ART SENT EAST

Mrs. S. Gaulin, teacher of the children's Art Class, sent examples of their work to Toronto in hopes that it would be included in a travelling exhibit sponsored by the C.S.E.A. Eagle collection.

She has received word that the collection arrived too late to be included in the exhibit which is presently on view in Quebec but if the Eagle Company extends the time the local studios will be included. However, permission has been asked to keep the collection at the Toronto Teacher's College for study by student teachers and for possible inclusion in a future project.

CURLING NEWS

The semi-annual meeting and election of officers for the men's curling club will be held at 7 p.m., May 13th in the club lounge.

The annual wind-up dinner and dance is scheduled for June 1st. Be sure to reserve this date. Start lining up a party now for this 'do' of the year.

COUNCIL QUOTES (Cont'd from Page 7)

Reeve Heenan is investigating the possibility of deferred payments approved by the Ontario Municipal Board, fearing that a surge of home building by the school boards might prove too large a burden on the tax payer. He had been made aware of the need for the Board's approval through their commitments on the swimming pool. However, citing figures here the Reeve felt that in the event the \$30,000 expenditure would have to be paid this year they had a carry-over of \$25,000 leaving an approximate balance of only \$6,000.

Arrangements were being completed for Municipal employees to meet with a representative of the Ontario Municipal Employees Retirement Board on Monday May 13th concerning a retirement plan.

Clarification on the right of way and erection of a light standard at the junction of Highway 17 and the Mill road were sought from Mr. Garland of the Department of Highways.

Council made a motion of their approval delegating authority to the Regional Welfare in the eventuality of child negligence demanding immediate medical attention. A solicitation for the Rehabilitation Fund was forwarded to the Kimberly-Clark Employees Charity Fund.

Mr. Bert Ratchford was appointed to fill the vacancy created by the resignation of Mr. W.F. Colborne from the Library Board. The

Reeve re-opened the subject of a move for the Public Library. Fearing the old curling club quarters was not the solution, Councillor Wellings discussed possibilities presented at a recent Recreation meeting. Council were of the opinion an exchange with the Teen Town rooms might prove most suitable and the Reeve suggested this be investigated by the Board.

Details of the Hydro Spring Sales Campaign were read and approved for local sales.

Fire Report for the month of March listed a very quiet month there being only one fire call. It recommended burning grassy areas in Town as soon as conditions permitted, tying in with the Department's spring clean-up campaign. The report also listed prices and types of resuscitators with the Department's recommendation. Councillor Adamo wanted to see the fire hose checked under pressure at the next fire practice and Councillor Fraser recommended the practice be used to blow out hydrants.

Public Library, Hydro, Township and Recreation accounts for the month of March were thoroughly discussed before passing for payment. The Reeve invited questions on the bank reconciliation statement and the Town's financial background was explained to newcomers.

Due to the fact the present issuer of car licenses was relinquishing the position this year, Council discussed replacements who had the required opening hours as it was a definite Town convenience to purchase licenses locally.

Reeve Heenan remarked on the fine showing in Minor Hockey this year and stated he would write congratulating the League, particularly on their Midget and Bantam District Championships.

Trespassing at the Imperial Motel had reached a critical point which, owing to the nature of the business, (a garage and restaurant,) made it most difficult to do much about it Reeve Heenan stated. Councillor Valiquette presented recommendations for a sidewalk which would relieve the traffic problem, but was informed they could not spend money on private property and the Reeve felt a sidewalk on the highway would not be used. No Trespassing signs would be erected and the proprietor was contacting his lawyer with regard to further legal steps.

Discussing of overlapping of holiday time by the Fire Chief and Chief Constable to attend summer courses in their profession was discussed and left in the hands of the Fire and Police Committees.

Disliking the implication received Councillor Adamo demanded. (Cont'd on Page 8)
