

COUNCIL QUOTES (Cont'd from Page 7)

some action from Council concerning the Circle Route Service Station. The present By-Law on Garages and Service Stations was read, also copy of letter sent to the two Service Stations last May. Councillor Adamo reiterated his demand for a change in the by-law or enforcement of it. Reeve Heenan explained the reasoning which established the present By-Law, and with the stipulation on no stock piling of old or junk cars, Council discussed the possibility of relinquishing their existing restrictions.

A complaint was registered from Councillor Adamo that the promised Recreation budget had not been published. Representatives on the committee, Councillors Wellings and Valiquette stated a three-man committee were at work on it. Councillor Wellings answered Councillor Valiquette concerning street cleaning, stating it would be done as soon as conditions permit.

The Reeve brought Councillor Adamo up to date on their discussions during his absence of the parking problem around the Churches. Now that Lent was over, the Reeve felt the problem existed for only one hour a week and that no driver would proceed through a line of parked cars at a hazardous speed. Visibility had been ^{poor} last winter and he would see the snow blower was used on the streets next winter. He requested Councillors bring in recommendations on the Parking By-Law for the next meeting.

Due to a change in work hours Councillor Valiquette would be unable to attend afternoon Recreation meetings and it was agreed he change with Councillor Adamo, taking over his liason with the Chamber of Commerce, Public Relations and Town Planning.

Councillor Valiquette brought in a recommendation the Township should support jointly with Schreiber Township, the Transient Fund, which would then qualify for the eighty per cent Municipality grant. This was approved by Council and the first half of \$125, passed for payment. The Transient Fund would continue to be administered in Schreiber.

Councillor Valiquette gave a detailed report on the Conference he attended last month in Toronto of Ontario Municipal Police Governing authorities. His biggest problem here was that the public felt he could dictate to the Chief of Police where as, in reality, the law was clearly outlined with the Attorney General having the last word on it.

Councillor Fraser included in his report a request to have old grass burned but Councillor Wellings cautioned on harmful effects to the birch trees. Certain areas were agreed upon.

A special meeting of Council was scheduled for Wednesday, April 24th at 7:00 P.M.
