

COUNCIL QUOTES (Cont'd from Page 1)

These were passed on to Councillor Wellings who had been absent at the time. Councillor Wellings explained backup was due to the blockage caused by unbelievably large and numerous sticks, sand and debris, all inserted by children. The sewers had been completely cleared and heavy screening inserted under the lid, as a precautionary measure against further flooding. Council discussed the building of curbs along the affected lots, but will be left in abeyance pending observation at the next storm.

Councillor Adamo reported too many bears were at the dump and he felt it dangerous. Council generally agreed it had become a great tourist attraction and with the number of cars consistently present, it should not prove hazardous. However the Game Warden will be requested to investigate.

Preparations are underway for moving the Library and Councillor Wellings was asked to get Mr. Ferrier's permission to make the change.

Councillor Wellings reported some special under-covers had been made for the round sewers and had proved very satisfactory for several years. He sought permission to have the additional 110 sewers completed in a like fashion. This was approved by Council and prices will be sought.

Councillor Adamo felt the white line should be repainted on the streets, and though Council in general felt it unnecessary, agreed to do the Shopping Plaza. He further requested the widening of the street near the Community Church, and Council discussed at length the cost of removing the deep curbing and fill. Councillor Valiquette requested Councillors Adamo and Wellings to study the corner of Fort Garry and Elizabeth when making their town survey re stop signs and parking areas. This corner was obstructed in its view due to the hill and the hedge.

SOCIAL AND PERSONAL

NOTE TO PARENTS

If you are in doubt as to when your child is to attend classes, check with the Lifeguards or Swim Instructor AT THE POOL. Also, send your child ONLY to the class which he is to attend. Children who are NOT taking classes are not welcome at the pool during the time when other classes are being held.

ALSO, please see that your family members obey pool rules. These rules are identical to rules in other pools and are made for the protection of the swimmers AND the equipment. Those failing to abide by pool rules will be suspended.

For public information, the following points are noted: (1) Pool water temperature is at about 73° to 75°. A little cooler than originally planned, but still plenty warm and much healthier for bathers and pool cleanliness. (2) Clothing check baskets will be available, at a small charge, when they are received from the suppliers. (3) ONLY those over 16 and / or those working days may swim during the designated evening hours. This is only a very small portion of the daily period (Continued on Page 8)
