MOOSE HUNTING BY AIRCRAFT

As a result of the overall success of two years of experimental use of aircraft in hunting moose, Mr. Roberts has announced that two areas in northern Ontario will be open to hunting by the use of fixed wing aircraft, but not helicopters, in 1963. One of these is a large, almost uncharted area to west and north of Red Lake and the other is a 1,518 square mile area to the west of Lake Nipigon, in the Port Arthur Forest District.

Hunters who are to use aircraft for searching for moose in these areas must apply at local offices of the Department for special permits which will be exchanged for their regular moose licence at no extra cost. Each special permit expires 14 days (Cont'd pg.12)

SUMMER

SAVINGS
