NEW METHOD FOR SKATERS (Continued from Page 2) their world championship form: a set to three colour filmstrips showing the basic techniques of skating and dancing on skates: a set of eighty film loops each illustrating one skating figure from start to finish: a manual of printed instructions.

The use of film loops in this instructional method is novel. Each section of 16 mm. film is joined end to end so that the loop of film can be shown continuously over and over again until every detail has been observed.

The entire kit should be invaluable in teaching the art of figure skating. If it proves to be a popular form of instruction it is possible that the Department of National Health and Welfare will be prepared to release other "How To" kits for other sports associated with its drive towards national fitness.

Sunday, November 10th at 2:00 P.M. Branch 223, Royal Canadian Legion, Terrace Bay, will hold memorial Services at the Cenotaph for the fallen of past Wars.

During the past week there have been numerous queries as to the date for holding these services in respect to the National Memorial Service which is held yearly in Ottawa on November 11th, the exact date of the signing of Armistice, or so we have been told.

May we say at this time, that the date of holding these services is not the Legion's doing, but, nevertheless there is some justification in having the Sunday prior to Armistice Day set aside for such services, especially when the date in question falls during the week.

It seems that Terrace Bay is not alone in having the Service on the Sunday prior to, for other centres throughout Canada and Great Britain are doing the same in order that the working masses may attend these solemn rites without forfeit of wages and pay their respect to those who died so that we may live.

Here in Terrace Bay, during the past years, the turnout for this occasion, no matter what date it is held on, has not been very gratifying to the living, never mind the dead, and it seems that quibbling over a date is far from solving anything for, no matter what date what time, what place, a service such as this is held, the main objective is
