COUNCIL QUOTES

Councillor Wellings strongly urged extension of sewer and water lines up Lakeview Drive, possibly at a rate of so many lots per year for the next three or four years, as the need arose. He outlined the predicament of the sewers on MacDonald and Kenogami, making recommendations to clear it next spring.

Council noted the Parking area adjacent to the Community Church would be adequate now.

recommending no parking be allowed on the Island. Congestion at St. Martin's Church could be eliminated by the congregation using the side streets where parking space was available.

Councillor Adamo reported on the first meeting he had attended together with representative from Kimberly-Clark N. Cornthwaite and W. Farrel of the Recreation Board and Jack Phillips Rec. Comm. Chairman sitting in. Council discussed the findings of this group concerning the purpose and fulfillment of the Recreation Centre, particularly in the area of the Concessionaire. Beseiged with complaints a year ago, on the high cost of recreation, Council's attempts to increase revenue had been rejected. Comparable reports on recreation in neighboring communities showed the local recreation with the lowest annual deficit. This statement was contested by Councillor Adamo who promised to personally investigate the figures. Complaints this fall concerned the time and availability of services for local residents. The situation had eased with the ending of tourist season, but Reeve Heenan will list Council's recommendations for Councillor Adamo to present at the next meeting of this committee, on November 19th. Councillor Valiquette felt there must be co-operation between Council and the Recreation Committee and, as there were already two representatives of Council on the Committee, it should be left to them to decide.

Councillor Valiquette questioned the services charged to the Town (Cont'd on Page 5)
