DUSK-TO-DAWN LIGHTING- by H.E.P.C.

Outdoor dusk-to-dawn lighting for private property and road allowances is now available on a rental basis to customers of Ontario Hydro.

This rental plan offers customers 175-watt mercury vapor lighting units with photo-electric controls at low monthly rates. The units, which are automatically switched on at dusk and off at dawn, are particularly suitable for lighting farm yards, private lanes, storage areas and parking lots.

A net rental charge of \$3.75 a month includes the cost of lamp replacement. If customers require a pole for use with the lighting unit, an additional charge of 50 cents per month will also be made.

It is expected that during the first full year of operation of the dusk-to-dawn rental lighting plan, over 2,000 units will be installed.

Hydro's dusk-to-dawn lighting program will be affiliated with a similar lighting plan to be launched soon on a national basis by the Canadian Electrical Association.

Trappers in this district realized \$102,223.50 from the sale of beaver pelts in 1963.
