

COUNCIL QUOTES (Continued)

After consideration of requests, it was decided to lower water rates from \$14 to \$10 for grocery stores and similar businesses other than hotels, motels, restaurants, filling stations and garages for year 1964. The request of Mrs. O. Strasser for street light was referred to the Hydro Commission. A membership in the N'Western Ontario Development Association was accepted. Mr. Guina pressed for completion of a long-considered by-law to control property and it was agreed this must be done. Mr. McGrath outlined renovations and improvements necessary in the water system - installation of new main and new hydrants for fire protection being among these.

Public Library grant was set at \$1200 with annual rental \$800. The clerk has been asked to supply names of local employers (trade names when possible) to the Unemployment Insurance Commission. A donation to Salvation Army work will be set when the budget is planned. The Captain will be informed of meeting nights so that he can meet with Council. A questionnaire dealing with relations between Council and School Boards was answered. Public Welfare, Toronto, was notified that the Town accepts the responsibility of Miss Sylvia Morris and offered repatriation as suggested.

Mrs. McCuaig, in new Public Relations position, was asked to have signboard, giving history of the town, replaced. Also, bring recommendations regarding suitable program for Schreiber's celebration of Canada's Centennial. Water works accounts of \$157.59 and general accounts of \$3,382.06, were ordered paid. The fire half-ton pickup truck was traded with the Town for its sedan delivery. Insurance on town truck #2 was renewed until February 28th. Arrangements will be made to have all town insurance policies expire March 31st with tenders from agents for these to be handed in to Clerk by February 28th for consideration.

The Hydro Commission will be invited to meet with Council to discuss amalgamation of the two offices. It was agreed that experienced help must be furnished for Clerk Skinner but no definite step taken until the matter has been studied further. Mr. Skinner gave a concise description of the difficulties in which he carries on his duties. Schreiber, he said, is the only municipality of comparable size in the district without an assistant in the Town Office and, for the protection of the town's interest this second employee is a necessity since he could take ill and there would be no one familiar with any of the work to carry on.
