NOTICE TO TERRACE BAY CITIZENS

The Township Council of Terrace Bay is considering entering into an agreement with the Federal and Provincial Governments to erect a Centennial Project of lasting duration, the cost of which is to be borne equally by the three Governments.

This would include such projects as the construction or restoration of libraries, museum buildings, concert halls and other buildings of historical significance; the development or improvement of park land or other recreational facilities; the commissioning of works of art, writing of books or plays, the composition of music and paintings provided that they are not commissioned solely for celebrations; and the acquisition of or improvements to collections of historical materials directly related to the history of Canada's Confederation and to Ontario's part in the building of the nation.

This is an invitation to our citizens, and local organizations in particular, to take part in this project by submitting suggestions to any council member or the Municipal office not later than the end of February, 1964.
