'53 BELAIR CHEV. IT RUNS!! 49.

QUETICO CONFERENCE (Cont'd from Pg. 10)

The course was offered in early spring so trainees could go directly to employment.

Twenty-two women and girls participated with 15 receiving certificates proclaiming their work "outstanding". These people are capable of serving in any capacity in a tourist resort. All of the trainees acquired adequate skills to enable them to work as cabin girls, laundresses and kitchen assistants. Thirteen trainees concluded the course and went directly to jobs.

ARTIST'S TALENT RECOGNISED

One of our local artists, Mrs. Sadie Gaulin, has just been notified that she has been chosen to present some of her art at the Four Seasons Motor Hotel in Toronto on June 19, 20 and 21st. Judging was done by a three-man jury headed by Alan Jarvis, noted art critic and editor of Canadian Art Magazine.

DRIVEWAY SURFACING SIMPLIFIED

Re-surfacing your own blacktop driveway may sound like a big assignment for the ordinary homeowner, but a new product makes this a do-it-yourself task.

The new coating, a liquid, does not require pre-heating and the only tool needed is a pushbroom.

According to its developer, Allied Chemical Corp. the new product is waterproof and flexible. It is

made from a base of coal-tar pitch.

If you care to try it, here's the step by step procedure recommended by the manufacturer.

1. Dig out all soft or oil-soaked spots on the blacktop surface. Clean all dirt and loose material from holes and cracks. Low spots which are to be elevated to the level of the rest of the driveway should be dug out to a depth of at least one inch.

2. All holes and cracks should be filled with a ready prepared blacktop patching compound. These patches can be tamped firmly in place.

3. Hose off the entire area and apply the coating to the still damp surface. Apply two thin coatings, allowing the first coat to dry before the other is applied.

Factographs

The Republic of Korea was Founded by the Carnic invaded June 25, 1950, by Gauls, Trieste became the more than 60,000 North Roman colony of Tergeste in Korean troops spearheaded the first century before by more than 100 Russian-built tanks.

The Phoenician city republics, first appearing in about 1600 B.C., exemplify a type of empire building, one based on sea power.

The architectural term grotesque means a fanciful exaggeration of human or animal form used as a decorative device.
