SWIM MEET HERE AUGUST 22ND

The Annual Terrace Bay Swim Meet will be held on Saturday, August 22nd at the Terrace Bay Pool. Starting time is 1:00 P.M. SHARP.

In all there will be forty-four events for boys, girls, men and women, ranging from eight years and up. Lists of events may be seen on the Bulletin Boards at the Recreation Centre, Swim Pool and Mill.

ENTRANTS MUST REGISTER, AT THE POOL, BY 6 P.M., THE DAY BEFORE THE MEET. NO ENTRIES WILL BE TAKEN AFTER THAT TIME.

As in past years, first, second and third place winners in each event will receive crests. In addition, top point winners in each age group will receive individual trophies.

Events in all age groups will include diving, breast stroke, back stroke and crawl. Swimmers may participate in as many events as they desire, but can only register in one age group.

IT'S AN EVENT THAT NO ONE SHOULD MISS. Be sure to set Saturday afternoon, August 22nd, as the day you'll be at the Swim Meet in Terrace Bay.

SWIMMERS REGISTER NOW!!

BLOOD DONORS CLINIC NEXT WEEK

A Red Cross Blood Donor's Clinic will be held at the Terrace Bay High School Auditorium on Monday, August 17th from 2 to 5 P.M. and 6.30 to 9.30 P.M.

Everyone is urged to attend. No appointment is necessary for those who have not been contacted.

The clinic has been organized by the Local Branch of the Canadian Cancer Society. Rest, bed attendance and coffee are being looked after by ladies of the community.

The Red Cross will bring its mobile equipment and trained professional staff so that blood can be taken safely and antiseptically and returned quickly to the Manitoba Depot. There it will be tested and grouped and be readily available for patients.

Many of you have donated before; to those new donors, who are especially welcome because increased demands for blood require new donors urgently, we suggest that you ask a repeat donor for his impressions. You will be completely reassured by the casual attitude of the donor to the process of giving blood. He can tell you that the whole routine only takes 30 minutes of which only four minutes is involved in the actual taking of the blood.

You will be assured that it does not hurt, that there is no sensation to the taking and that there are no ill effect afterwards. Perhaps, because
