FIRST QUALITY FLANELLETTE SHEETS

PRE - SEASON SPECIAL -

\$4.98

Pictured above is a view of the "Million Dollar Merry-Go-Round" which was the G.H.Wood Company exhibit at the Canadian National Exhibition in Toronto.

Currency at the exhibit was made available through the courtesy of the Canadian Imperial Bank of Commerce.

Four youngsters from Quebec and Ontario Rotary Clubs were each given a thousand dollar bill off the Merry-Go-Round which Mr.Wood's "Sanitation for the Nation" company donated to the respective Rotary Club's Crippled Children's Funds. The money, the Rotary Clubs say, will come as a welcome addition to their constant needs for their good work.

The purpose of the spectacular display, which attracted large crowds, was to stress the fact that preventable sickness costs more than a million dollars a day. The G.H.Wood Company believe that their products can help to reduce this distressing loss of health and production.

The city of Windsor is to receive matching grants of \$113,459 from Ontario and Federal governments to convert a vacant 10.3 riverfront tract into a public park as a centennial project.

RADIO IMPROVED IN TERRACE BAY

Those who have tuned in on the local wave length, 1010 on your dial, will have noted a great improvement in radio reception. The long-awaited low power transmitter has been installed and is working great.

Local citizens, the Chamber of Commerce and M.P. Douglas Fisher have all lent their efforts towards the final result.

POWER MOWERS CAN BE DANGEROUS

Every now and then we read of accidents caused by power mowers. Recently we were shown a hose nozzle which was cut up by such a machine. BE ESPECIALLY CAREFUL IF CHILDREN ARE IN THE VICINITY WHEN YOU CUT GRASS.

SCHOOL STARTED TODAY

It must have been that many children in Terrace Bay were so anxious to get to school that they could not wait until the traffic guards were in position. Last week, through the combined efforts of the Police Department and the school a schedule of times when the school patrol is in position was published and a request that children wait until such times to leave for school both morning and at noon. Once again the authorities urge that parents see that children stay at home until the patrols are on guard at intersections.

TRAGIC ACCIDENT IN MARATHON

Last week the Marathon Mercury detailed events of a tragic accident in that community when a 2 1/2 year old boy swallowed some pills and succumbed to the effects.

His little eyes had watched a relative take a pill and put them away and, unbeknownst to her, he later climbed up to the cupboard and ate the remainder.
