

Do you have to ration hot water on wash days and bath nights?

a Cascade 40 electric water heater can change all that.

Cascade 40 has two elements: a 1000-watt lower element for normal use, and a 3000-watt top element that surges into action at times of extra heavy use. That's why the Cascade 40 can supply more hot water than the average family is ever likely to use.

Cascade 40 is flameless, safe and clean. It requires no flue so it can be installed anywhere. The ten year guarantee on the tank is your assurance of Cascade 40's reliability.

Civic-minded rather than religious, thirty-five representatives of the towns, schools and clubs, discussed the problem with the clergy who had formed the nucleus of a Committee for Decent literature. Spearheaded by the Knights of Columbus, their
