

See how GMC's Engineering Leadership makes HANDI-VAN the ideal combination of carrying capacity, loadspace and power.

With 211 cu. ft. of loadspace, bulky goods can be moved with ease. For heavy goods, Handi-Van's one ton capacity provides for more cargo, fewer trips.

A city delivery van needs big, wide vision windows. And Handi-Van has them. Side windows feature handy adjustable ventipanes for selective ventilation without draughts.

Big 48" x 49 3/4" double-wall construction rear doors mounted on sturdy wide-spaced hinges — the kind of doors a hard working delivery van needs.

A fine GMC Engineering Leadership feature — optional at extra cost side doors for big, bulky loads. They're on the sidewalk side for convenience and safety.

Handi-Van has an all-steel, corrugated floor. It's flat from one end to the other. And it's only knee-high from the ground to help you load heavy and bulky cartons.

GMC Engineering Leadership has given Handi-Van just the right blend of power and economy—a standard 120 hp 6 or an optional at extra cost 140 hp 6.

Handi-Van

Handi-Bus

Announcing! The all-new Handi-Bus

And now you can get the Handi-Bus . . . the handy way to carry people. There are two of them, Handi-Bus and the Custom Handi-Bus. Depending on optional at extra cost seating arrangements, you'll carry five or eight passengers. Handi-Buses have the same GMC Engineering Leadership features that have made Handi-Van so popular—a compact 90" wheelbase, a fully rust-proofed sturdy body structure and a wide selection of optional equipment and window choices.

A GENERAL MOTORS VALUE
