LIONS PRESENT ORTHO RATER TO TOWNSHIP

The Lions' Club held a dinner meeting with their ladies present, in the YMca private dining room, to hear R.N. Smillie of the Bell Telephone Co., speak. Mr. Smillie described the Laser, a wonderful new invention that will be used in communications and many other fields. The speaker, who now lectures to schools and Service Clubs throughout the province has, in addition to years of service with the Bell Company, had a varied career as naval Lieut. Commander in World War II, Olympic Boxer at Amsterdam in 1928, small boat sailor and golfer, all of which contribute to his ease in meeting and speaking to the public.

During the meeting President Jack Handel presented an Ortho-Rater to Reeve F.V. Harness for use in Schreiber.

Reeve Harness drives last car through old subway before it is filled in.
