

BRIEF TO SELECT COMMITTEE (Continued from P.1) promoting youth activities, the following recommendations were made:

EDUCATIONAL

Whereas vocation and occupational facilities are almost non-existent in small communities;

Whereas the cost of providing facilities of this type is prohibitive in communities where the assessment is very low in comparison to industrialized areas;

Whereas building and facility costs are higher in Northwestern Ontario and maintenance costs are also higher;

Be it resolved that the grant structure be changed in such a way that the communities with lower assessments receive a higher percentage grant for facility expansion than communities with greater assessments.

EMPLOYMENT OPPORTUNITIES

Whereas there are very limited job opportunities for local youth in the smaller, scattered communities of Northwestern Ontario;

Be it resolved that where Junior Rangers are used in Provincial Parks, that local boys have first opportunity at such jobs;

Be it resolved that the Department of Lands and Forests lower its age requirement from 17 to 16 or 15 years, thereby giving this younger group a chance at summer employment;

Be it also resolved that work in small communities for the 14-16 year age group be made available through local municipal offices.

CULTURAL

Whereas the outlying areas of Ontario lack leader-

ship in the cultural spheres of recreation, such as Drama and the Arts;

Be it resolved that the Government of Ontario send trained personnel to the outlying communities to conduct workshops pertaining to leadership aspects in these fields.
